

THE STORY OF HAJI

In 2000 Haji came to "Nice View" with his two siblings. He was very malnourished and his body was much too weak for his age. However, due to the healthy and sufficient nutrition in "Nice View", his health condition improved rapidly. Even the initial nightmares that plagued the 6-year-old gradually improved until he was finally sleeping peacefully through the night.

The initially very shy boy developed over time into a self-confident, reliable and helpful teenager who also performed very well in school.

Nevertheless, there were ups and downs in his school career in the following years and Haji pursued several career directions as a young adult, showed himself very motivated in various industries and ultimately many paths were open to him. Haji always impressed with his open and honest nature.

Through "Nice View" he was able to try out and discover his strengths for himself. Finally, he decided to study teaching and successfully completed it.

We are very proud of Haji and especially happy when he decided to use his skills as a teacher in our "Nice View" - school. He is not "only" a teacher, but also a person who passes on the values he has learned to his students. In the meantime, Haji proves his confidence in his abilities by acting as the headmaster of the "Nice View" school. However, his dreams do not end here, Haji is thinking about further education that could give him deeper insights into the topic of "school management".
