

## APPRECIATION FOR MEDICAL SUPPORT

I am Grishon Mshila Mwangoya, started working for Nice View Children's Village and family Durr since it started in the year 2000 to date.

After realizing that the project objectives was to help poor Kenyan children and the community at large and the commitment from Family Durr I felt like Nice View is my family and that's why I don't regret working for the project up to now.

While working on the maintenance section, on 10<sup>th</sup> February 2020 I got injured when I was preparing some casaurina logs for splitting at the workshop.

This happened after a tree fell on my leg causing a bad injury. I was admitted at Msambweni hospital a government facility for almost a week but my condition was worsening due to poor services.

Mr. Edmund Durr and Denise could not bear it anymore though Denise paid frequent visits to the hospital and she saw how the treatment done. She even brought some antibiotics and other medicines because the hospital did not have and later the medicine went missing.

On seeing the conditions to my feet they decided to seek for better medical services to save the leg. On 16<sup>th</sup> February 2020 we requested for transfer to our clinic (Nice View Medical Centre) where I spend a night there as plans for other better hospital confirmed through family Durr.

The following morning Denise got a hospital in Nairobi through our nurse and after sending the photos of my leg to the doctors they said I should be there immediately.

Due the poor roads in Kenya and long distance and injury on my leg Denise organized for a flight to Nairobi and I was accompanied by one Nurse.

While in Nairobi, I was taken to theatre three times and I had to stay in bed for a long time until 23<sup>rd</sup> March 2020 when I was discharged and advised to be checked again after six weeks.

Nice View directors informed me that they have informed other members of the project and friends in Germany and asked for funds for my medical bills.

I hereby appreciate all the donations that you sent to support my medical bills and other expenses. I thank all project members and well-wishers for being supportive to me, Nice View children and the community as well, may God bless you abundantly.

Currently am doing well and hopefully I will walk again and resume my duties in the project as usual.

Thank you.

Yours sincerely,

Grishon Mshila Mwangoya.
