

ANGEL GROUP 12th may 2020

It's with great honor I Doris the social worker from Nice View, would like to write a short report of what we are doing at Nice View during this pandemic. We came up with an idea on how we could help the children develop their talent, behaviors and more so spiritual development. We formed different groups based on their interest, capability and their willingness. Each group has a leader.

I like to share shortly of what we are doing in my group. My group is called **ANGEL GROUP.**

The members from my group decided to name our group basing on their behaviors' and thus the name would play a great role in helping them to change and stop doing things that are not pleasing God. They want to associate with God in everything they do and to be the Messengers of God.

It's now three weeks since we formed the group and much improvement noticed from my group members. Each member feels free to share any challenge, idea, feeling and as a leader I feel encouraged since all members are willing to share what they have thus becomes easy for me to guide, encourage and help them to overcome through sharing a story from the bible, life experience or any other idea that God help me to have.

We also have group motto from book of **LUKE :2:52...And Jesus increased in wisdom and stature, and in favor with God and man. We are looking for a future based on strong spiritual matters.**

All the time we ensure we are busy as a way of avoiding bad things. Here are some of activities we do in our group: Baking, dancing, puzzles, telling bible stories, watching inspirational movies, reading bible among others.
