

REPORT ABOUT THE KITCHEN WARRIORS OF NICE VIEW

I am Dorothy and one of the older children of Nice View. I had to interrupt my studies because all universities were closed indefinitely due to the Corona pandemic and came home to help my siblings in learning and activities and also support the family life like my other older siblings.

I am a leader for a group also and the group is WARRIORS

In the beginning of May 2020, the Kitchen Warriors had their first meeting where I explained about the Group's mission.

The main mission of the group is to enlighten the group members more about God so that they grow up to be a family that is rich in God's knowledge and live a righteous kind of life.

The other mission of the group is to focus on cooking and baking and also to enhance the group members kitchen skills and knowledge.

In the meeting, it was decided that members will be meeting every Saturday for cooking and Tuesdays for baking.

Members found out that they could also come up with:

1. A nice view recipe book
2. A manual about how the group started to help future generations of this group

The members concluded that the recipe book will be given the title

"NICE VIEW MOUTH WATERING RECIPES"

The manual book was considered as a perfect idea and is already in the writing process.

The mama and children in the group are so happy and motivated to be in the group where they'll learn more about GOD and how to communicate to GOD.

It was recommended that everyone to be given a personal file and a note book to store the materials about God and the recipes they got from their leader and to note down the important things they got from the group.

In future the manuals and recipes will be transferred to the computer for easy access of the information to a larger audience.

Few photos from the group members in the kitchen already
