Directions

Coming from Mombasa along the coastal road, you reach Ukunda after approximately 30 minutes. In Ukunda you could turn left towards the famous Diani beach. However, to get to Nice View you go straight on in direction of Tansania. It's approximately 25 to 30 kilometers from Ukunda to Msambweni. When you reach Msambweni, you pass by the police station. After the police station you turn left. At the roadside you can spot a sign with the Nice View Children's Village banner, which is now circa 4 kilometers away.

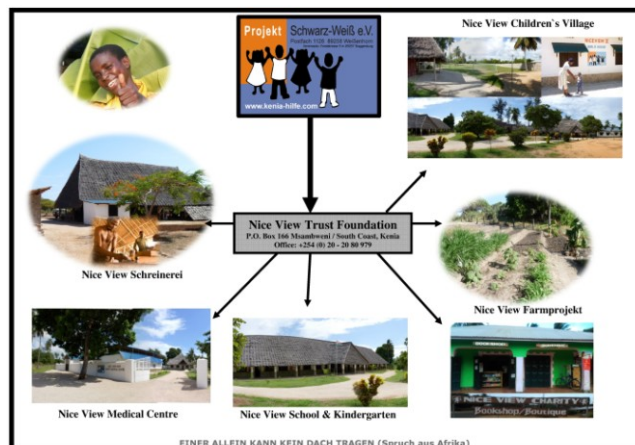

Follow the road and pass by the Matatu station until you reach the hospital. Turn right just in front of the hospital, follow the road in a right / left combination, afterwards in a long curve to the left. At the end of the curve, on an un-surfaced road, you come to a way fork under a big mango tree. Now turn right in about 45°. Follow the road, pass by a sports ground until you reach the next fork. Here you turn right and after a few meters you reach the entrance gate of the Nice View Children's Village.

In case of problems do not hesitate to ask. Everyone in the village knows the children's home.
